Dear Ms. Frohlich,

Enclosed please find the following items for your review regarding the above-referenced project constituting our resubmission to the Borough of Old Tappan Planning Board:

- Eighteen (18) signed and sealed sets of the Preliminary and Final Site Plan prepared by our office, dated May 18, 2021, last revised September 26, 2022; and
- Three (3) signed and sealed copies of the Stormwater Management Report prepared by our office, dated May 2021, last revised September 2022.

The plans and reports have been revised to reflect changes made to the proposed stormwater management design, in effort to address the Borough's requests made at the recent public hearings. The Curve Number calculations have been revised to conservatively assume "good" soil conditions onsite, and the stormwater flows have been revised to reflect same. Associated details and calculations can be found within the enclosed Stormwater Management Report.

Please process the enclosed materials as well as the information above in preparation for the upcoming Planning Board Hearing. If you have any questions or require additional information, please do not hesitate to contact our office.

Sincerely,

Dynamic Engineering Consultants, PC
